2nd March 2017

Dear Parent/Carer

School Security

On monitoring the first few weeks of the new security plans it has been highlighted to the school that some parent/carers are now parking in the supported class parking area. This area is only for dropping off and collection of pupils in the supported classes.

We are issuing a parking pass to allow only access to parents/carers of pupils in the supported classes. Please display this car park pass to allow access to the car parking area at the rear of the school.

We intend to monitor these arrangements and will review as required. In the meantime I’m sure you will agree that the safety and security of all our children is paramount and your help and support in this matter is appreciated.

Kind regards

Lesley Winters-McCann
Head Teacher
